PROFILE SUMMARY

QA Engineer with 4.2 years of experience in Manual and Automation Testing across Web, Desktop, and Mobile applications. Hands-on experience in Software Quality Assurance, including Desktop Testing, Web Testing, and basic Mobile Testing. Proficient in Selenium WebDriver (Java), TestNG, Page Object Model (POM), Python, and API Testing using Postman. Experienced in setting up and managing Windows environments and familiar with Mac environments. Strong understanding of bug lifecycle, defect tracking tools, test planning, and test case management systems. Worked in Agile/Scrum environments ensuring high-quality releases.

WORK EXPERIENCE

QA Engineer | ANR Software Pvt. Ltd. Noida

May 2022 - Present

- Designed and executed 500+ test cases covering Functional, Smoke, Sanity, Integration and Regression scenarios, ensuring stable releases across multiple product lines.
- Performed cross-browser testing on Chrome, Firefox, and Edge; identified and reported 100+ defects with a 95% closure rate using JIRA.
- Performed desktop testing across multiple devices and resolutions to ensure end-to-end product quality..
- Conducted basic Android testing for mobile compatibility and usability validation.
- Set up and managed Windows testing environments and basic exposure to Mac environments.
- Developed Selenium WebDriver automation scripts using Java, TestNG, and POM, reducing manual regression effort by 30%.
- Performed API testing using Postman, validating REST APIs, request/response payloads, status codes, and data integrity.
- Tested end-to-end marketing automation workflows in Mautic, including campaign triggers, segmentation, and data synchronization.
- Validated CRM modules in vTiger including Leads, Contacts, Sales Pipeline, and Role-Based Access Control.
- Collaborated in Agile/Scrum sprints, contributing to sprint planning and retrospectives resulting in faster defect resolution.
- Supported CI/CD pipeline validation, ensuring build stability and release readiness.
- Executed SQL queries for back-end data validation using MySQL/PostgreSQL.

Process Expert | Provana India

Aug 2020 - May 2022

- Worked as a Process Expert supporting a US-based client, handling escalations and ensuring high-quality service delivery.
- Mentored team members on process guidelines and ensured consistent SLA adherence for the client account.

Process Analyst | Provana India

Jun 2019 - Apr 2020

- Worked as a Process Analyst supporting a US-based client, resolving queries and ensuring accurate ticket handling.
- Collaborated with cross-functional teams to maintain process quality and meet client SLAs.

Process Analyst | IEnergizer Noida

Mar 2018 - Oct 2018

- Worked as a Process Analyst for the Paytm process, resolving customer tickets via email as part of backend support.
- Ensured timely resolution of customer queries within defined SLAs, maintaining process quality standards.

PROJECTS

Mautic - Marketing Automation Platform:

- Performed end-to-end testing of marketing automation workflows including campaign triggers, email segmentation, and CRM data synchronization.
- Validated custom workflows, user roles, and security configurations; identified critical data sync issues before production release.

vTiger - CRM Platform:

- Tested CRM modules including Leads, Contacts, Sales Pipeline, and RBAC, ensuring data accuracy and workflow efficiency.
- Executed regression testing across 20+ modules to ensure system stability and data integrity post-release.

Appointments - Online Booking Platform (appointments.altametrics.com):

- Performed functional and UI testing for scheduling, rescheduling, reminders, and time-zone validations across multiple user roles.

Buying Intent - Data Integration Application:

- Tested end-to-end data integration workflows including third-party intent data import, company filtering, Mautic synchronization, and lead push to vTiger CRM.

Writer Portal - Article Publishing Platform (wp.altametrics.com):

- Performed functional and content-workflow testing for article creation, editing, and publishing modules in WriterPortal, ensuring accurate rendering and seamless publishing.
- Validated user roles, permissions, and content approval workflows to ensure data integrity across the publishing pipeline.

Sales App - Sales Management Application:

- Performed functional and regression testing of sales workflows including lead assignment, deal tracking, and pipeline updates.
- Validated data synchronization between the Sales App and CRM, ensuring accuracy of customer and sales records.

EDUCATION

Bachelor of Technology (B.Tech) - Electrical & Electronics Engineering (EEE)
United College of Engineering & Research, Allahabad | July 2011 - June 2015

Technical SKILLS

- **Testing Skills:** Manual Testing, Functional Testing, Regression Testing, API Testing, Database Testing, Cross-Browser Testing
- **Platforms:** Web, Desktop Applications, Mobile Testing
- **AI Tools:** Claude, Gemini, Open AI and Notebook LLM and AI Studio
- **Automation Tools:** Selenium WebDriver (Java), TestNG
- **Automation Frameworks:** POM (Page Object Model), BDD (Behavior Driven Development)
- **API Testing:** Postman (REST API, JSON validation)
- **Databases:** SQL (MySQL, PostgreSQL)
- **Programming Language:** Java, Python
- **CI/CD & Version Control:** Git, CI/CD Pipelines
- **Tools & Technologies:** Atlassian JIRA, HTML, CSS, Bootstrap, MS Office
- **Domain Knowledge:** CRM (vTiger), Marketing Automation (Mautic), Hospitality Applications
- **Methodologies:** Agile/Scrum, SDLC, STLC

ACHIEVEMENTS

- **Employee of the Month Award** - Recognized for outstanding QA contributions, defect detection and on-time delivery.
- **Team Excellence Award** - Acknowledged for collaborative efforts, team contribution, and maintaining high testing standards.

CERTIFICATIONS

- **Selenium WebDriver with Java** - Udemy (Rahul Shetty Academy)
- **Manual Testing Certification** - QSpiders Institute, Noida
